Ok – thanks for the update. David can advise on Monday regarding any need to include enviro groups as part of notifications.

The Governor Abbott thing was just something I forgot to erase from the document I used as a template. Local notification has been added. I'm not sure about the enviro groups.

Jennah – thanks for pulling together. Good job. To help ensure everyone is tracking on the same page with the same understanding of any roles/responsibilities associated with the roll-out of a comms plan developed by a team member, we are working to implement the practice of “discussing” needed actions in advance of any roll-out. Since you developed this one, please plan to talk through your comms plan for GP/Crossett with the team following our Comms Tracker meeting on Monday, the 9th. So folks are familiar and can be prepared for the discussion, recommend you send the plan out tomorrow along with a note to everyone letting them know we'll discuss on Monday and asking them to read, provide any comments/input and/or ask questions etc.

Couple of clarification Q's from me:

The Plan calls for notification of Crossett congressional delegation and possible notification of TX Gov. Abbott's office (only IF David requests). Has David provided you with any response regarding that possible notification? How about AR Governor's office and local Crossett elected officials (mayor)? Any need to notify any environmental orgs? Plan mentions Ouachita Riverkeepers and LA Environmental Action Network being involved/aware but not sure about whether you want them to be notified or not. Please advise. Thx.
